Health Coach Client Templates: Intake, Welcome + 50 Session Scripts

Section 1: Intake and Onboarding (5 Templates)

****1. Initial Inquiry Response Email****

Subject: Let's chat about your health goals, [Client Name]

Hi [Client Name],

Thanks so much for reaching out. I was impressed by your clarity in your inquiry, especially your note about [specific detail mentioned in inquiry]. That is exactly the kind of shift I help clients make.

I have two availability windows for our complimentary 15-minute discovery call this week:

- * Option A: [Date/Time]
- * Option B: [Date/Time]

Please let me know which works best for you, and I will send over a calendar invite. If neither fits, reply with a few times that do, and I'll do my best to accommodate.

Looking forward to connecting,

[Your Name]

****2. Welcome Packet Intro Letter****

Dear [Client Name],

Welcome to the start of your transformation journey with [Your Business Name]. I am incredibly honored that you have chosen to partner with me. This packet contains everything you need to get

started, including your intake questionnaire, program agreement, and onboarding calendar.

Please take your time with the intake form. There are no wrong answers; the more detail you provide,

the more tailored our work will be. Once you return the form, I will review it thoroughly and prepare personalized notes for our first session.

Remember, this is a safe space. My goal is to support you in becoming the healthiest, most confident

version of yourself. Let's do this.

With excitement,

[Your Name]

****3. Client Intake Questionnaire (40 Questions)****

(Note: In the final product, list these clearly in a numbered list. Here are the core categories)

****Health History (1-10):**** Current medications, allergies, past injuries, chronic conditions, family history, previous surgeries, sleep quality (hours/quality), stress levels (1-10), recent lab results, and general health satisfaction.

****Goals (11-20):**** Primary goal, secondary goal, timeline for goals, definition of success, motivation levels, past weight/health fluctuations, ideal daily routine, non-negotiables, fears about the process, and what "good" looks like in 6 months.

****Lifestyle (21-30):**** Occupation/stressors, work hours, commute time, cooking responsibilities, food preferences, food aversions, current movement habits, social eating habits, alcohol consumption, and screen time usage.

****Blockers & Previous Attempts (31-40):**** Biggest obstacle, previous diet/exercise attempts, why they failed, emotional eating triggers, environmental obstacles, support system availability, mindset beliefs about health, past coach experiences, current energy levels, and readiness for change (1-10).

****4. Program Agreement Overview****

This agreement outlines the professional relationship between [Your Business Name] and [Client Name].

* ****Scope of Services:**** Health coaching is not medical advice. I do not diagnose, prescribe, or treat medical conditions. You are responsible for sharing all relevant medical history and consulting your physician for medical concerns.

* ****Confidentiality:**** All conversations are private. Exceptions apply for risk of harm.

* ****Payment Terms:**** Fees are due [e.g., upfront/monthly via auto-pay]. Late fees apply after [X] days.

* ****Cancellation Policy:**** Sessions must be rescheduled at least 24 hours in advance.

Cancellations within 24 hours are billed in full.

* ****Termination:**** Either party may terminate the agreement with 7 days' written notice.

****5. First Session Prep Email****

Subject: Preparing for our first session, [Client Name]

Hi [Client Name],

I'm looking forward to our first session on [Date/Time]. To make the most of our time, please consider the following:

1. ****Review your Intake:**** Re-read your answers. Are there any you'd like to change or expand on?
2. ****Pick One Focus:**** If you have multiple goals, which one feels most urgent or exciting to tackle first?
3. ****Note One Win:**** What is one thing you are already doing well in your health journey?

No need to write anything down--just have these thoughts ready. I've prepared a few specific questions based on your intake, so we'll dive right in.

See you on [Day]!

[Your Name]

Section 2: First Session Scripts (5 Scripts)

****1. Goal Clarification Framework****

"Let's zoom in on your primary goal. Often, clients say they want to 'lose weight' or 'get fit.'

Let's get specific. What does that look like physically? How will you know you've achieved it? Is there a specific number, a milestone event, or a feeling associated with this goal? Let's define the 'finish line' clearly so we can work backward."

****2. Values Discovery Questions****

"Before we talk about **what** you want to do, let's talk about **why**. Think about your core values--health, family, career, freedom. How does achieving this health goal align with your top value? If you don't prioritize this, what are you sacrificing in terms of those values? Connecting the action to your value creates deeper intrinsic motivation."

****3. Current vs. Desired State Mapping****

"Let's map out the gap. On one side, write down your current state: your typical day, your energy levels, your habits. On the other side, describe your desired state: how you wake up, how you

feel,

what you eat. Now, look at the middle. What specific habits need to change to bridge that gap?

We

don't need to change everything at once. Let's identify the 2-3 highest-impact changes."

****4. Commitment Script****

"Coaching is a partnership. I bring the strategy and accountability; you bring the execution and consistency. I need your commitment to show up, to be honest, and to do the work, even when it's

uncomfortable. Are you ready to commit to this process, knowing that it requires active participation from you? Let's agree on our 'deal' for the first month."

****5. Action Step Agreement****

"Let's end with one concrete action step for the next 48 hours. It should be small, specific, and doable. Not 'eat better,' but 'buy three apples and put them on the counter.' What is one thing you can commit to doing in the next two days to give us a win? Let's write that down now."

Section 3: Ongoing Session Scripts (20 Scripts)

****1. Weekly Check-In Opening****

"Hi [Name], how are you really doing this week? Not just the physical metrics, but how are you feeling emotionally and energetically? What was the biggest win, and what was the biggest struggle?"

****2. Progress Celebration Script****

"Look at this data. You've maintained [habit] for [X] weeks straight. That's not just luck; that's skill building. I want to pause and acknowledge that. How does it feel to see that consistency? Let's give yourself credit for that effort, because it's the foundation of your long-term success."

****3. Plateau Conversation Script****

"It feels like we've hit a plateau, but in reality, your body is just recalibrating. This is normal. Instead of spinning our wheels, let's look at the details. Are we tracking accurately? Has your stress level changed? Let's make one micro-adjustment to break the stagnation without overhauling your entire plan."

****4. Accountability Check-In for Missed Goals****

"I notice we didn't hit the target for [Goal]. I'm not here to judge, but I am here to problem-solve. What got in the way? Was it a lack of time, energy, or a specific trigger? Let's analyze the

'why' so we can design a better system for next time. What would have made this easier?"

****5. Energy and Sleep Review Framework****

"Let's look at your energy. When is your energy highest during the day? Lowest? How is your sleep

quality affecting your food choices? If you're tired, it's hard to make good decisions. Let's try one sleep hygiene tweak this week to see if it impacts your daytime energy."

****6. Stress Audit Questions****

"Where is your stress coming from this week? Is it work, relationships, or internal? How does stress

manifest in your body? Does it make you want to eat, move, or shut down? Let's identify one stressor

and one coping mechanism that isn't harmful, so we can build a buffer."

****7. Food Relationship Questions (Non-Triggering)****

"Let's talk about food without judgment. How do you feel *after* eating? Do you feel satisfied, bloated, or energized? What foods make you feel like 'yourself'? We aren't counting calories; we're

looking for foods that support your body's needs. What's one food you're curious about trying more of?"

****8. Movement Audit****

"How is your body moving? Is it feeling stiff, sore, or energized? Do you enjoy your current movement routine? If not, why? Movement should be something you look forward to
