

Health Coach Client Templates: Intake, Welcome + 50 Session Scripts

RenWork Digital Products

Section 1: Intake and Onboarding

1. Initial Inquiry Response Email

****Subject:**** Re: Your Interest in [Program Name]

Hi [First Name],

Thanks for reaching out! I'm glad you're ready to take the next step in your health journey.

To ensure I'm the right fit for you, I'd love to schedule a free 15-minute discovery call. This is a low-pressure chat where we can discuss your current situation, your goals, and how I work. If we're

a good match, I'll send over an application to join the next cohort.

You can book a time that works for you here: [Link to Calendar].

If you have any immediate questions, feel free to reply to this email.

Best,

[Your Name]

2. Welcome Packet Intro Letter

****Subject:**** Welcome Aboard, [First Name]!

Dear [First Name],

I am incredibly excited to have you on board. Over the next [Duration], we are going to build sustainable habits that align with your values, not just your wants.

This packet contains everything you need for the first two weeks. Please read the "Program Agreement" thoroughly to understand the boundaries and expectations of our partnership. The "Intake

Questionnaire" is the most critical document in this packet; please complete it before our first

session. Your honest answers will give me the map to navigate your unique health landscape.

I am here to guide you, but you are the driver. Let's get started.

Warmly,

[Your Name]

3. Client Intake Questionnaire (Excerpt of 40 Questions)

Note: This section covers the core categories. In the full PDF, these are formatted as a fillable form.

****Health History & Medical Context****

1. Do you have any diagnosed medical conditions?
2. List all current medications and supplements.
3. Have you had any major surgeries in the last 5 years?
4. Describe your current sleep quality (1-10).
5. What does a typical day of eating look like for you?

****Goals & Motivation****

6. What is your primary reason for seeking coaching right now?
7. How will you know this program has been a success?
8. What is one thing you are willing to sacrifice to achieve your goal?
9. On a scale of 1-10, how ready are you to make a change?
10. What are your "non-negotiables"?

****Lifestyle & Environment****

11. How many hours do you work per week?
12. Who else lives with you, and how do they support/hinder your goals?
13. What is your current movement routine?
14. How do you typically feel after a workout?
15. What is your relationship with stress?

****Blockers & Previous Attempts****

16. What has stopped you from achieving this goal in the past?
17. What works for you when things get tough?
18. What is your biggest fear regarding this process?
19. How do you usually respond to failure or setback?
20. What resources do you currently have access to?

(Questions 21-40 cover specific dietary preferences, energy levels, social habits, and psychological triggers.)

4. Program Agreement Overview

****Summary of Expectations:****

- * ****Confidentiality:**** All information shared is private.
- * ****Scope of Practice:**** I am a health coach, not a doctor. I do not diagnose or prescribe.
- * ****Communication:**** I respond to emails within 24-48 hours. Urgent health issues must be directed to your medical provider.
- * ****Commitment:**** You agree to attend all sessions and complete assigned action steps.
- * ****Payment:**** Fees are due by the 1st of each month. Cancellations within 24 hours of a session are billed in full.

5. First Session Prep Email

****Subject:**** Preparing for Our First Session

Hi [First Name],

Our first session is coming up on [Date/Time]. To make the most of our time, please:

1. Complete the Intake Questionnaire (link below).
2. Write down your top 3 goals for the next 90 days.
3. Note down one question you are afraid to ask.

I'll see you then!

[Your Name]

Section 2: First Session Scripts

1. Goal Clarification Framework

"Let's zoom out. You mentioned you want to lose weight. But usually, weight is a symptom. Let's dig deeper. What does losing weight *allow* you to do? Is it to play with your kids? To feel confident at work? Let's refine your goal from 'lose 20 pounds' to 'build the energy to play tag with my kids without getting winded.' Which one resonates more?"

2. Values Discovery Questions

"If money and time were no object, what would your ideal day look like? Notice the values in that description. Is it freedom? Connection? Strength? We are going to build your health habits around these values, not against them."

3. Current vs. Desired State Mapping

"Draw a line in the middle of this page. On the left, list your current reality--how you eat, move, and feel. On the right, list your desired state. Now, look at the gap. What is the *smallest* bridge we can build between the left and the right?"

4. Commitment Script

"Coaching is a partnership. I bring the knowledge; you bring the action. If I'm going to push you, I need you to commit to showing up, even when you don't want to. Are you ready to make that commitment?"

5. Action Step Agreement

"Before we hang up, let's agree on one single action step for this week. Not three. One. What is the one thing you will do that will move the needle, even if you only have 10 minutes? Let's write it down and schedule it."

Section 3: Ongoing Session Scripts

1. Weekly Check-in Opening

"How is your energy level this week? Not just physically, but emotionally. What's one win, no matter how small, and one challenge you faced?"

2. Progress Celebration Script

"I'm looking at your data, and I see a 10% increase in your step count. That's huge. How did that make you feel? Let's pause and acknowledge that win. What did you do differently that made that possible?"

3. Plateau Conversation Script

"It's normal to hit a plateau. Your body is adapting. Let's look at the data. Are we still following the plan? If yes, let's tweak one variable--maybe protein intake or sleep duration. If no, let's identify where the leak is."

4. Accountability Check-in for Missed Goals

"I notice you missed your workout three times this week. I'm not judging. I'm curious. What was happening in your life that made it hard? Let's look at the pattern. Was it time? Energy? Or something else?"

5. Energy and Sleep Review Framework

"Let's track your sleep for three days. What are you doing 60 minutes before bed? Is your room cool

and dark? How is your caffeine intake in the afternoon? Let's experiment with one change and see how your morning energy shifts."

6. Stress Audit Questions

"When you feel stressed, what is your default response? Do you eat, scroll, or exercise? Let's identify your top three stressors this month. What is one tool you can use to manage that specific stressor?"

7. Food Relationship Questions (Non-Triggering)

"Let's talk about food without good or bad labels. What foods make you feel heavy? What foods make you feel light? What is your relationship with 'comfort' food? How can we incorporate that comfort without the guilt?"

8. Movement Audit

"How much movement are you getting outside of structured workouts? Are you sitting for long periods?

Let's look at your daily routine. Where can we sneak in a 5-minute movement break?"

9. Hydration and Habit Check

"Are you drinking enough water? Let's do a simple test. Is your urine pale yellow? Let's set a reminder to drink a glass of water with every meal. How does that feel?"

10. Mindset Barrier Exploration

"What is the voice in your head saying when you want to skip a healthy choice? What would you say to a friend who had that same thought?"

11. Trigger Identification Script

"Let's map your triggers. When did you last break your habit? What happened right before? Was it an emotion? A time of day? A location? Let's create an 'If-Then' plan for that specific trigger."

12. Habit Stacking Conversation

"What is a habit you already do every day without fail? Brushing your teeth? Making coffee? Let's stack your new habit onto that. For example, 'After I pour my coffee, I will do 10 squats.'"

13. Environmental Design Session

"Let's look at your kitchen. Is healthy
