Job Interview Prep Pack: 50 Q+A Scripts + STAR Method Templates

Section 1: The STAR Formula Breakdown & Templates

Mastering the STAR method is the single highest-ROI skill in interview preparation. It transforms vague anecdotes into compelling, structured evidence of your capability.

The 1-Page Guide

- * **Situation (10%):** Set the scene briefly. Who, what, when, and where? Keep it under two sentences. *Goal: Context without clutter.*
- * **Task (10%):** Define the specific problem or goal you were responsible for. What was at stake? *Goal: Highlight your responsibility.*
- * **Action (40%):** This is the core. Detail the specific steps *you* took. Use "I" statements, not "We." Focus on your decision-making process, tools used, and strategic moves. *Goal: Demonstrate competence and thought process.*
- * **Result (30%):** Quantify the outcome. Use numbers, percentages, or concrete impacts. If there is no number, describe the qualitative improvement (e.g., "reduced team friction," "recovered client trust"). *Goal: Prove value.*
