Health Coach Client Templates: Intake, Welcome + 50 Session Scripts

Welcome to the complete operational backbone of your health coaching practice. This pack is designed

to move clients from initial curiosity to deep, sustainable transformation while protecting your time and energy. Each script and template below is written to be copied, customized with your unique

voice, and deployed immediately.

1. Intake and Onboarding

****1.1 Initial Inquiry Response Email****

Subject: Let's talk about your health journey, [Client Name]

Hi [Client Name],

Thanks for reaching out! I was excited to hear about your interest in [specific goal mentioned in inquiry, e.g., sustainable weight loss/better energy].

Before we schedule a call, I want to make sure we are the right fit. I work best with clients who are ready to take active responsibility for their health and are willing to do the "inner work" alongside the physical changes.

Are you available for a 20-minute discovery call this week? Here are a few times that work for me:

* [Date/Time Option 1]

* [Date/Time Option 2]

If neither works, let me know what times suit you.

Best,

[Your Name]

****1.2 Welcome Packet Intro Letter****

Subject: Welcome to the Team, [Client Name]!

Dear [Client Name],

I am thrilled to officially welcome you to [Program Name]. You have taken the most difficult step: deciding to change. Now, we are going to make that change feel manageable, enjoyable, and sustainable.

Inside this packet, you will find everything you need to get started. Please read the "How We Work

Together" section carefully. It outlines our communication style, session structure, and expectations. My job is to guide, challenge, and support you; your job is to show up and be honest.

Let's build a life you love, one step at a time.

Warmly,

[Your Name]

****1.3 Client Intake Questionnaire (Excerpt of 40 Questions)****

Note: This is a condensed view of the core categories. The full 40-question form includes specific follow-ups.

****Health History & Biometrics****

1. Current height and weight?
2. Do you have any diagnosed medical conditions?
3. What medications or supplements are you currently taking?
4. Have you had any major injuries or surgeries in the last 5 years?

****Goals & Motivation****

5. What is your #1 priority for the next 90 days?
6. What would your life look like if you achieved this goal?
7. Why is now the right time to start?
8. How will you know you have succeeded?

****Lifestyle & Habits****

9. Describe a typical day for you, from waking up to sleeping.

10. What does your average meal look like?
11. How much water do you drink daily?
12. How many hours of quality sleep do you get?

****Blockers & History****

13. What has prevented you from achieving this goal in the past?
14. What have you tried before? What worked, and what didn't?
15. What is your biggest fear regarding this process?

(Questions 16-40 cover detailed stress triggers, social influences, movement preferences, and emotional relationship with food.)

****1.4 Program Agreement Overview****

This agreement outlines the scope of practice. As a health coach, I provide education, motivation, and accountability. I do not diagnose, treat, or prescribe medical conditions. Clients agree to maintain their own medical care and to communicate openly with their healthcare provider.

****1.5 First Session Prep Email****

Subject: Prepping for our first session

Hi [Client Name],

Looking forward to kicking things off on [Day]! To make the most of our time, please review your intake form answers and jot down 3 specific questions you want to ask me. Also, think about one small win you've had this week, no matter how small. We'll start there.

See you soon,

[Your Name]

2. First Session Scripts

****2.1 Goal Clarification Framework****

"Let's zoom in on your goal. Right now, you said you want to lose weight. But what is the *underlying* desire? Is it to run with your kids? To feel confident in a dress? Let's define the 'Why' so it's strong enough to carry you when the 'How' gets hard."

****2.2 Values Discovery Questions****

"Think about a time you felt truly aligned and happy. What were you doing? Who were you with? What values were you honoring? Let's list three core values that must be present in your new routine, or

it will feel like a punishment."

****2.3 Current vs. Desired State Mapping****

"Let's look at your current state. If you do nothing, where will you be in 6 months? Now, let's look at the desired state. What is the gap? We are going to bridge this gap with specific, actionable steps, not vague aspirations."

****2.4 Commitment Script****

"I need you to make a promise to yourself, not just to me. What is the one action you will take every single day, even on your worst day, to honor this commitment? Let's write it down now."

****2.5 Action Step Agreement****

"Let's agree on three micro-steps for this week. They must be so small they feel almost ridiculous. For example, 'drink one glass of water upon waking.' No more. Can we commit to these three?"

3. Ongoing Session Scripts

****3.1 Weekly Check-in Opening****

"Hi [Name], thanks for doing the work this week. Before we dive into the numbers, how are you feeling overall? What was the brightest moment, and what was the hardest moment?"

****3.2 Progress Celebration Script****

"Look at this chart. Six weeks ago, you couldn't do this. Now you can. I need you to stop and really acknowledge that. This isn't just luck; this is your consistent effort. Let's celebrate this win before we set the next goal."

****3.3 Plateau Conversation Script****

"It's normal to hit a plateau. Your body is adapting. This is a sign you've made progress, not that you've failed. Let's look at what's changed. Have we been too consistent? Sometimes we need to shift the variable--maybe intensity, maybe rest."

****3.4 Accountability Check-in for Missed Goals****

"I notice we didn't hit our target this week. I'm not here to judge. I'm here to understand. What got in the way? Was it a lack of time, energy, or a sudden life event? Let's troubleshoot so next week is different."

****3.5 Energy and Sleep Review Framework****

"Let's look at your energy logs. When do you dip? Is it right after lunch? At 3 PM? Let's correlate

this with your food and sleep. Are you eating enough protein? Are you getting deep sleep? Let's adjust one variable at a time."

****3.6 Stress Audit Questions****

"Stress isn't just emotional; it's physical. What is your 'stress response'? Do you clench your jaw? Do you overeat? Do you scroll your phone? Let's identify your top three stressors this week and design a 2-minute reset for each."

****3.7 Food Relationship Questions (Non-Triggering)****

"How do you feel 30 minutes after eating? Is it satisfaction or guilt? Let's separate the food from the emotion. If you removed the judgment, what would you eat? Let's explore that curiosity without the shame."

****3.8 Movement Audit****

"When did you last move your body in a way that felt like play, not exercise? Let's find one movement that you genuinely enjoy. It doesn't have to burn calories; it just has to move you. How can we fit that in daily?"

****3.9 Hydration and Habit Check****

"Let's check our hydration logs. Are you drinking water, or are you just sipping? Let's try a visibility trick: keep a large bottle with you everywhere. Can you commit to finishing it by 5 PM?"

****3.10 Mindset Barrier Exploration****

"I hear a thought: 'I'm too busy.' Let's unpack that. If this were truly important, you'd find the time. What is the cost of not doing this? Let's weigh that cost against the effort required."

****3.11 Trigger Identification Script****

"Let's trace back to the moment the slip happened. What happened right before? Was it a specific emotion, a location, or a person? Now that we know the trigger, what is the 'if-then' plan? 'If I feel stressed at work, then I will take five deep breaths.'"

****3.12 Habit Stacking Conversation****

"Let's attach this new habit to an existing one. You already brush your teeth, right? Let's stack the new habit right after. 'After I brush my teeth, I will do 5 minutes of stretching.' Can you visualize that?"

****3.13 Environmental Design Session****

"Willpower is finite; environment is constant. How can we make the
